PURVEYORS OF FINE FOODS
Since 1983, Marky’s Caviar offers its clients an exceptional caviar selection and gourmet foods to consistently deliver the most exclusive delicacies that the world has to offer. We pride ourselves on adapting the farm to table concept by providing the freshest caviar from our sister facilities in Florida, Sturgeon Aquafarms. We appreciate your business and thank you for choosing Marky’s.

SCOTTISH & NORWEGIAN SMOKED SALMON

To order please contact our sales specialists (305) 758 - 9288

Pinnacle salmon undergoes a cold smoking process over oak wood chips to bring out the smoky and bold flavor. The imperial cut fillet is the king of all Pinnacle products. This cut is taken from the finest and most tender part of the fish. This delicacy is enjoyed around the world by seafood connoisseurs that strive for the best. Take your taste buds on an adventure with Pinnacle Salmon!
Seafood Selection

Marky’s seafood collection is hand-selected with the utmost quality in mind. If you want to add quality delicacies to your dining experience, or you need an impressive addition to your party menu, we have products in this category that will exceed your highest expectations and satisfy all of your gourmet needs!

FRENCH CHEESES

Here comes the ultimate ingredient to make your smile! Cheese is undoubtedly one of the most admirable delicacies — sales by itself, everyone loves a great gust. It is a pleasure that stimulates all the senses. It catches the eye, caresses our fingers, and tantalizes the palate. France’s cheese is the very embodiment of the country’s diversity. Many offers from France’s most loved Mastigies. In France it is famously soft Camembert cheese and Italy’s Parmigiano Reggiano!

**Domestic & International**

**Cheddar Cheese**
- Marky’s offers a wide Cheddar Cheese selection crafted in North America.

Cheddar cheese is the most widely purchased and eaten cheese in the world and is always made from cow’s milk. It is a hard and natural cheese that has a slightly crumbly texture if properly cured, and if it is too young, the texture is smooth. It gets a sharper taste as it matures, over some time typically between 9 to 24 months.

Sturgeon Aquafarms was founded in 2001 with the intent to protect and preserve endangered sturgeon species. After successful importing Beluga, Sevruga and Osetra brought back stock on 13 trans-Atlantic flights back and forth from Europe to USA. After 7 years of permit applications, they finally reached their current home near the borders of Alabama and Georgia in Bascom, Florida. Our facility is 120 acres in Northwest Florida, it was built in 2009 using modern sustainable limited footprint design, with Floridian Aquifer that provides a consistent 19˚C water temperature, long periods of sunlight, drinking grade water free of pollutants and disease and an area free of natural predators. Over the past 5 years we have focused on our hatchery development and sexing techniques, having used the most advanced ultrasound possible. From 2011 - 2013 we spawned Beluga sturgeon 5 times producing a record 20,000 Beluga to date over 3 generations. We then followed with 2 further generations of Sevruga, adding Sterlet and Osetra. Our operation has been so successful that we have grown over 80,000 sturgeon with an average mortality of 1–5%, which has pushed us to advance sustainable aquaculture and sturgeon rearing technology. As the only company in possession of these critically endangered species in the United States, we have a unique position to not only contribute to the conservation of these species but also educate the public in the trade of caviar and sturgeon meat, a new product for the U.S. market.
